

Ingersoll Rand Launches Residential Solutions in India under its Trane Brand

***Brings Social Technology to Indian Homes through Interactive Devices
Air conditioning and Security Devices now get interconnected***

New Delhi, India, April 11, 2012 – Ingersoll Rand (NYSE: IR), a world leader in creating and sustaining safe, comfortable and efficient environments, launched Residential Solutions in India under its brand Trane. Trane, a leading global provider of indoor comfort systems and services, will usher in a new era of transforming Indian homes through interactive devices that make technology social.

In India, Residential Solutions by Trane will offer a range of premium Mini Split Air Conditioners from 3 to 5 * (star) in capacities ranging from 1, 1.5 and 2 Tons and an Electronic Main Door Mortise Lock. The products are interconnected, and can interact with each other through a new generation wireless technology.

Designed to meet the needs of Indian homes, these devices offer simple, yet technologically-evolved levels of interactivity, control, customization and operations for modern living. Trane's Interactive Home Devices are supported by Ingersoll Rand's technology legacy and a deep understanding of Indian consumer needs. The company plans to expand to 21 cities nationally by 2014.

—I am proud to say that Ingersoll Rand has entered the Indian consumer market with products that have unique technologies and are setting benchmarks for home comfort and safety,|| said Michael W. Lamach, chairman, president and chief executive officer of Ingersoll Rand. —We see tremendous opportunity in India for our customized suite of products and services that have a key focus on intelligent, sustainable and convergent solutions.||

Ingersoll Rand's rigorous market research shows that 90 percent of the Indian consumers contacted, preferred purchasing interactive home devices; and an even greater number considered energy efficiency as key. The new consuming generation is very sensitive to the sustainability challenges they face in the future. The launch of Residential Solutions in India bring to life interactivity of devices between themselves and with human beings and are set to redefine existing paradigms and expectations across the household products category.

—The future is convergence where technology and human intuitiveness get combined,|| shared Venkatesh Valluri, chairman & president, Ingersoll Rand India. —Our products have been designed with this in mind and today, we have taken the bold step to offer such solutions with Ingersoll Rand's legendary quality offerings. We believe our devices will substantially enhance consumers' comfort, convenience, safety and control, delivering a truly superior lifestyle.||

###
